1982 PRICE LIST

The TSE:HARDSIDE 1982 Micro-Computer Buyer's Guide

is now available! We've included such valuable information as print samples from each of the printers we carry, feature-by-feature comparisons of micro-computer systems in an easy-to-read table format, an informative article on Micros, and pages and pages of complete product descriptions. We're making this valuable reference available for only $2.95 (credited toward next purchase from TSE-HARDSIDE). Just clip the coupon (or send a note) with your check for $2.95 to the address below. THE TSE-HARDSIDE 1982 BUYER's GUIDE will soon arrive postpaid to your door.

Yes! Send me the

New Computer Book

TUNE-UP YOUR TRS-80

Ever wanted to do things to your TRS-80 that Radio Shack said couldn't be done? How about reverse video, high resolution graphics, a high-speed clock, and audible keystrokes?

Not enough? How about turning an 8-track into a mass storage device, making music, controlling a synthesizer, individual reverse characters, and a real-time clock?

If the thought of using a screwdriver gives you the shivers then you can turn to the software section. Learn how to make BASIC programs auto-execute, reset memory size, pack program lines with machine code, and generate sound effects.

The Custom TRS-80 and Other Mysteries is packed with page after page of practical information, and tested software. Get a copy and turn your TRS-80 into a supercomputer.

#65-238001B **$29.95**

New Computer Book

MAKE BASIC PERFORM LIKE A CHAMPION

BASIC is not nearly as slow as most programmers think.

BASIC Faster and Better shows you how to supercharge your BASIC with 300 pages of fast functions and subroutines.

You won't find any trivial, poorly designed "check-book balancing" programs in this book — it's packed with useful programs.

Tutorial for the beginner, instructive for the advanced, and invaluable for the professional, this book doesn't just talk. . . it shows how! All routines are also available on disk, so that you can save hours of keyboarding and debugging.

The #1 disk, BFBDEM, contains all the demonstration programs, and #2 BFBLIB, has all the library functions.

#65-238004B **$29.95**

#1 Disk (BFBDEM)

#25-238005T **$19.95**

#2 Disk (BFBLIB)

#25-238006T **$19.95**

TRS-80 Model I and Model III Business and Communications Software

Business accounting systems. Complete Package $750.00
A/R, A/P, P/R & G/L

Accounts receivable: Price $195.00

This self configuring system can be used on any 48K System with one to four disk drives. The system can be run coordinated with General Ledger or it can be used by itself. The user can decide how many disks he needs to accomodate his system & configure it to his requirements. Up 999 Customers & 999 invoices can be handled on a three disk system. A utility menu function allow for verifying programs & files, initializing files & configuring the system. As the users requirements change, the system can be reconfigured to accomodate the large capacity. The system supports NEBS Billing Statements, aging analysis reports, customer activity reports, unbilled report, open & close invoice reports. Sales tax is automatically handled & up to 9 other tax or sales categories are also support. This sytem is time tested in over 4,000 user accounts.

Accounts Payables: Price $195.00

This system, like all the Mod-III systems, is user configurable. Up to 999 Vendors & 999 invoices can be handled on a three disk system. The user can also coordinate this system with the General Ledger system & eliminate many of the data entry chores of the Ledger system. NEBS computer generated payable checks, aged analysis, Vendor activity & open & closed invoice reports and other reports are included in this package. This system has been run on Wang computer for several years with wide user approval.

Payroll: Price $195.00

The payroll system is also user configurable & can run on from one to four disks. Up to 250 employees living in up to 9 states can be paid using this system. NEBS computer payroll checks are supported. This system supports a wide range of reports including, W-2's, absentee, deduction, check register, payroll history, and more. Weekly or biweekly pay periods; salary and hourly pay is supported. Again, this system can also feed Ledger & reduce the data entry requirements for your General Ledger.

General Ledger: Price $195.00

This system is designed to interface with the other accounting systems or it can be run by itself. The user can define his own Chart of Accounts & report formatting. Trial balance, & income statements as well as user definable special reports are all included as part of the system.

Complete package for Model-I (#25-229020D) $750.00
Complete package for Model-III (#27-229020D) $750.00

Accounts Receivable for Model-I (#25-229010D) $195.00
Accounts Receivable for Model-III (#27-229010D) $195.00

Accounts Payable for Model-I (#25-229011D) $195.00
Accounts Payable for Model-III (#27-229011D) $195.00

Payroll for Model-I (#25-229011D) $195.00
Payroll for Model-III (#27-229011D) $195.00

General Ledger for Model-I (#25-229011D) $195.00
General Ledger for Model-III (#27-229011D) $195.00

ST80-III The ULTIMATE Communications Package: Price $150.00

This is our top of the line communication package. Full disk support including DOS commands have been implemented. ST80-III has been on the market for over two years and has become the standard in TRS-80 communication. This package has been used in a wide variety of applications including use with: Addressomultagraph, Compugraphics, Spectrometers, and a wide range of Time-sharing computers.

IBM	CDC	ITEL	Honeywell
DEC	WANG	Prime	Data General
Amdhal	RCA	XEROX	GE
Apple	Heath	Northstar	Altos
Superbrain	PET	Cromemco	HP 2000

The package includes the ST80-III smart terminal program & nine other communication utilities: Fully documented with easy to follow instruction, ST80-III is by far the best terminal product on the market today. Features:

1) User configurable communication tables
2) Auto Logon
3) Last line repeat
4) Formatted video (Page, Scroll & Formatted)
5) Direct cursor addressing
6) File transfer from disk or to disk
7) Printer support
8) Echo, Feedback & Veriprompt (tm) verifies data transmitted
9) 110 to 9600 BAUD support
10) Remote control of Memory open & close, Printer on & off Video on & off & auto logon
11) Help display
12) User definable function keys

HOST communications: Price $50.00

This program is by far the best HOST program you can buy. It supports the PRINT @ statement for the remote TRS-80 running any of the ST80 smart terminal programs. All of the ST80-III advanced functions are supported by host allowing easy access via Basic, Fortran and machine language programs. Host features include:

1) User defined RS-232 port addressing
2) Definable BAUD rates from 110 to 9600
3) Definable break (yes/no)
4) Allow line feeds
5) Commands:
   a) Turn on TRS (request to send),
   b) Turn off TRS,
   c) Receive data only from terminal,
   d) Receive data only from host,
   e) Send data only to host,
   f) Send data only to terminal,
   g) Operate in dumb terminal mode,
   h) Operate in ST80 mode,
   i) Check CTS status.

This is a self relocating subroutine that can load anywhere in high memory.

ST80-III for Model-I (#25-229001D) $150.00
ST80-III for Model-III (#27-229001D) $150.00

HOST package for Model-I (#25-229002D) $50.00
HOST package for Model-III (#27-229002D) $50.00

We help you reach out to the world.

PERSONAL SOFTWARE INC.

VISIDEX

The VisiDex™ program makes it a snap to remember anything, and everything, you don't want to forget.

VisiDex imposes no restrictions on the format or content of your data. So you can file away any kind of information you want to: names and addresses, important numbers and dates, ideas, things-to-do, lists, notes, report and memo highlights, stock, tax, and personal information.

Visdex
#47-204004D $199.95

DESKTOP/PLAN II

The Desktop/PLAN II™ program gives you a fast and easy way to automate and organize all your financial analysis, budgeting, and business planning.

Desktop/Plan II
#47-204008D $199.95

VISITERM

With the VisiTerm™ program, you and your personal computer can communicate with larger computers, with other personal computers, and send and receive disk file information over the phone.

Visi Term
#47-204003D $149.95

VISICALC

The VisiCalc™ program is the most widely-used personal computing program in the world today!

That's because VisiCalc is the easiest to use, most versatile way for you to "run the numbers" when evaluating any financial or business decision.

Visicalc
#47-207010D $199.95

VISIPLOT

The VisiPlot™ program adds a striking new visual dimension to all your financial analysis, forecasting, budgeting and business planning.

VisiPlot takes all those rows and columns of hard-to-grasp numbers and automatically turns them into easy-to-comprehend charts and graphs, right before your eyes.

Visi Plot
#47-204001D $179.95

VISITREND/VISIPLOT

The program guides you step-by-step in easy stages, from the original layout of your budget or plan through final computerized calculation and print-out of a boardroom-quality report. It can produce its own line charts and bar graphs, too—for greater visual clarity.

Visi Trend/Visi Plot
#47-204002D $259.95

TYPE-'N-TALK™ IS T.N.T.

The exciting text-to-speech synthesizer that has every computer talking.

- **Unlimited vocabulary**
- **Built-in text-to-speech algorithm**
- **70 to 100 bits-per-second speech synthesizer**

Type-'N-Talk,™ an important technological advance from Votrax, enables your computer to talk to you simply and clearly — with an unlimited vocabulary. You can enjoy the many features of Type-'N-Talk,™ the new text-to-speech synthesizer.

The Votrax Type-'N-Talk™ is one of the easiest-to-program speech synthesizers on the market. It uses the least amount of memory and it gives you the most flexible vocabulary available anywhere.

TYPE-'N-TALK™ comes with:

- Text-to-speech algorithm
- A one-watt audio amplifier
- SC-01 speech synthesizer chip (data rate: 70 to 100 bits per second)
- 750 character buffer
- Data switching capability
- Selectable data modes for versatile interfacing
- Baud rate (75-9600)
- Data echo of ASCII characters
- Phoneme access modes
- RS 232C interface
- Complete programming and installation instructions
