;
;Note GENCPM.DAT holds previous values
;This will be a Non-Banked version of CPM3
;Note take care if you remove "auto" and do it yourself
;to have reasonable values that will not overload RAM in this
;non-banked system
;
gencpm auto
w cpm3.sys B
;
; Now copy the cpm3.sys to your 8" bootable floppy.
; Make sure the file ccp.com is there as well.
; Use ZNB-LDR.COM to write a system on the disk.
;
