414	EDTASM*	QUIKSORT/SRC
436	BASIC	BKINVTRY/BAS
450	BASIC	KTAABA/BAS

This disk is a single-density TRSDOS data disk with no operating system. Model I users can simply place their operating system in Drive 0 and the LOAD 80 disk in Drive 1. Model III users must first use the TRSDOS CONVERT utility. Users with only one drive must own an operating system or utility which permits single-file, single-drive copying. Model III owners have the added problem of copying from single density to double density.

*EDTASM compatible source code. EDTASM is a product of Radio Shack™, a division of Tandy Corp.

This disk is a 'flippy' and is written to on both sides. Simply 'flip' the disk over to read the other side. As with all software, make a BACKUP immediately.

If you want information concerning LOAD 80, please call or write to Art Huston, Load 80, 80 Pine St., Peterborough, NH 03458. Tel 603-924-9471. If you want to return or exchange your disk, please write to Lori Eaton, 80 Pine St., Peterborough, NH 03458.
